

**Application No. 10/532,033**  
**Amdt. dated December 9, 2008**  
**Response to the Office Action of September 10, 2008**

**Amendments to the Specification:**

Please replace the paragraph beginning on page 1, line 11, with the following rewritten paragraph:

The Applicants have demonstrated quite unexpectedly that N<sub>2</sub>-phenylamidine derivatives also constituted antifungal compounds of choice, both in human-being beings and in ~~animal~~ animals.

Please replace the paragraph beginning on page 1, line 16, with the following rewritten paragraph:

Another main objective of the invention is to provide a novel fungicidal medicament synergistically combining at least one N<sub>2</sub>-phenylamidine derivative and at least one other compound known as having an antifungal activity in human-being beings or in ~~animal~~ animals.

Please replace the paragraph beginning on page 1, line 25, with the following rewritten paragraph:

All these objectives, among others, have been achieved by the inventors who have had the merit of finding that N<sub>2</sub>-phenylamidine derivatives surprisingly and unexpectedly exhibited a very high and perennial antifungal efficacy against a broad spectrum of agents which are infectious to human-being beings or to ~~animal~~ animals.
